## FEEDING RECOMMENDATIONS

- Feed changes should be made over 2 days.
- Harmony Complete Supplement Pellets allow the convenience of one uncomplicated feeding per day. See table below for appropriate feeding rates.
- Please accurately determine how much to feed. A kitchen scale is an excellent tool for any feed room.
- If the recommended feed rates are not suitable for your horse (ie: unwanted weight changes), please contact us to discuss your horse's individual needs.
- DO NOT EXCEED recommended feeding rates.
- Provide clean water and a salt source at all times. DO NOT provide additional trace minerals containing copper, zinc and/or selenium.
- Adequate forage supply provides the base of a healthy diet. If free choice hay is unavailable, ensure a minimum of 1.5% of the horse's bodyweight as hay or equivalent pasture is provided daily.

### DAILY RATES

Daily Pellet Amount (grams)	Approx. Cups *	Bodyweight Range (kgs)	Bodyweight Range (lbs)
165	1	227 - 317.9	500 - 699.9
220	1.33	318 - 407.9	700 - 899.9
270	1.66	408 - 499.9	900 - 1099.9
330	2	500 - 589.9	1100 - 1299.9
380	2.33	590 - 681	1300 - 1499.9

\* Standard kitchen measuring cup
