

# RITCHIE-SMITH *Harmony*

## High Fat Pellets

### IDEAL FOR

- Horses who are hard keepers
- Horses needing “cool” calories/slow release energy
- Performance horses & stallions
- Horses with metabolic challenges

**LOW SUGAR, LOW STARCH (LOW NSC)**

This tasty feed will help your horse look and feel their best. It is carefully formulated to be low sugar and starch with a fibre base to support healthy weight gain, a stable energy level and a coat with a healthy shine. These pellets contain 13% crude fat from Flax Oil, which is an excellent source of natural, plant based omega-3 fatty acids, to help balance a healthy diet. Specialty nutrients for supporting gut tissue maintenance and repair, as well as collagen building amino acids for supporting hoof growth, are some of the premium nutrients this product provides.

## KEY FEATURES

### Hooves and Skin

- Biotin
- Essential Amino Acids: Lysine, Methionine and Threonine
- Collagen building Amino Acids: Glycine and Proline
- Chelated Minerals: Zinc, Copper and Manganese
- No added iron

### Immune Support

- 2000 IU of Vitamin E (1000 IU from Natural Vitamin E)
- Omega-3 from flax oil
- Organic Selenium
- Vitamins A & D

### Gut Health

- Yeast culture (pre & postbiotics)
- Fermentable fibre sources
- Amino Acids to support healthy gut tissue: Glutamine

### Metabolism

- Iodine naturally sourced from kelp
- B-Vitamins: Riboflavin, Thiamine, Folic Acid, Niacin and B<sub>12</sub>

## FEEDING RECOMMENDATIONS

- Feed changes should be made over a period of 7–10 days.
- Harmony High Fat Pellets should be split into at least two feedings per day to assist with optimal digestive health. See table below for appropriate feeding rates.
- Please accurately determine how much to feed. A kitchen scale is an excellent tool for any feed room.
- If the recommended feed rates are not suitable for your horse (ie: unwanted weight changes), please contact us to discuss your horse's individual needs.
- DO NOT EXCEED recommended feeding rates.
- Provide clean water and a salt source at all times. DO NOT provide additional trace minerals containing copper, zinc and/or selenium.
- Adequate forage supply provides the base of a healthy diet. If free choice hay is unavailable, ensure a minimum of 1.5% of the horse's bodyweight as hay or equivalent pasture is provided daily.

\*\*Harmony High Fat Pellets are perfectly complemented by our Complete Supplement Pellets. If your horse does not need a full dose of High Fat Pellets daily, we can help you determine the right amount of High Fat Pellets and Complete Supplement Pellets in order to balance your horse's daily ration. Please don't hesitate to contact us!

## High Fat Pellets

IDEAL FOR HORSES WHO ARE HARD KEEPERS
