Maintenance Pellets

IDEAL FOR

- Horses in light to moderate work
- Growing horses
- Horses requiring more calories than from forage alone

Moderate energy pellet created through a blend of digestible starch and fermentable fibre to encourage healthy hind gut function. Premium timothy and soyhulls provide fermentable fibre to support a wide variety of horses. Harmony Maintenance pellets are an excellent choice for companion or working horses as well as growing horses to provide energy, protein, vitamins and minerals through quality ingredients.

KEY FEATURES

Hooves and Skin

- Biotin
- Essential Amino Acids: Lysine, Methionine and Threonine
- Chelated Minerals: Zinc and Copper
- No added iron

Immune Support

- 2000 IU Vitamin E
(300 IU from Natural Vitamin E)
- Omega-3 from flax oil
- Organic Selenium
- Vitamins A & D

Gut Health

- Yeast culture (pre & postbiotics)
- Fermentable fibre sources

Metabolism

- B-Vitamins: Riboflavin, Thiamine, Folic Acid, Niacin and B₁₂

FEEDING RECOMMENDATIONS

- Feed changes should be made over a period of 7–10 days.
- Harmony Maintenance Pellets should be split into at least two feedings per day to assist with optimal digestive health. See table below for appropriate feeding rates.
- Please accurately determine how much to feed. A kitchen scale is an excellent tool for any feed room.
- If the recommended feed rates are not suitable for your horse (ie: unwanted weight changed), please contact us to discuss your horse's individual needs.
- DO NOT EXCEED recommended feeding rates.
- Provide clean water and a salt source at all times. DO NOT provide additional trace minerals containing copper, zinc and/or selenium.
- Adequate forage supply provides the base of a healthy diet. If free choice hay is unavailable, ensure a minimum of 1.5% of the horse's bodyweight as hay or equivalent pasture is provided daily.

**Harmony Maintenance Pellets are perfectly complemented by our Complete Supplement Pellets. If your horse does not need a full dose of Maintenance Pellets daily, we can help you determine the right amount of Maintenance Pellets and Complete Supplement Pellets in order to balance your horse's daily ration. Please don't hesitate to contact us!

NUTRIENT SPECIFICATIONS	PER 2.5 KG (500 KG BW)	
CRUDE PROTEIN (MIN)	13 %	333 grams
