

RITCHIE-SMITH *Harmony*

Senior Pellets

IDEAL FOR

- Horses in their advanced years
- Hard keeping performance horses
- Broodmares & foals
- Horses who require partial forage replacement

Moderate to high energy pellet created through a blend of digestible starch and fermentable fibre to help support senior horses, performance horses, and broodmares. All of these types of horses require nutrients that are highly digestible and easily absorbed, which are key features of this pellet. The high quality protein and specific amino acid building blocks assist in topline musculature, gut health and hoof quality. This pellet is highly palatable, features premium timothy and beet pulp to provide fermentable fibre that will assist with hind gut function.

KEY FEATURES

Hooves and Skin

- Biotin
- Essential Amino Acids: Lysine, Methionine and Threonine
- Collagen building Amino Acids: Glycine and Proline
- Chelated Minerals: Zinc, Copper and Manganese
- No added iron

Immune Support

- 2000 IU of Vitamin E (1000 IU from Natural Vitamin E)
- Omega-3 from flax oil
- Organic Selenium
- Vitamins A & D

Gut Health

- Yeast culture (pre & postbiotics)
- Fermentable fibre sources
- Amino Acid for healthy gut tissue: Glutamine

Metabolism

- Iodine naturally sourced from kelp
- B-Vitamins: Riboflavin, Thiamine, Folic Acid, Niacin and B₁₂

FEEDING RECOMMENDATIONS

- Feed changes should be made over a period of 7-10 days.
- Harmony Senior Pellets should be split into at least two feedings per day to assist with optimal digestive health. See table below for appropriate feeding rates.
- Please accurately determine how much to feed. A kitchen scale is an excellent tool for any feed room.
- If the recommended feed rates are not suitable for your horse (ie: unwanted weight changes), please contact us to discuss your horse's individual needs.
- DO NOT EXCEED recommended feeding rates.
- Provide clean water and a salt source at all times. DO NOT provide additional trace minerals containing copper, zinc and/or selenium.
- Adequate forage supply provides the base of a healthy diet. If free choice hay is unavailable, ensure a minimum of 1.5% of the horse's bodyweight as hay or equivalent pasture is provided daily.

**Harmony Senior Pellets are perfectly complemented by our Complete Supplement Pellets. If your horse does not need a full dose of Senior Pellets daily, we can help you determine the right amount of Senior Pellets and Complete Supplement Pellets in order to balance your horse's daily ration. Please don't hesitate to contact us!

NUTRIENT SPECIFICATIONS	PER 2.5 KG (500 KG BW)	
CRUDE PROTEIN (MIN)	15 %	370 grams
LYSINE (MIN)	0.6 %	16 grams
METHIONINE (MIN)	0.4 %	10 grams
THREONINE (MIN)	0.6 %	16 grams
GLUTAMINE (MIN)	0.04 %	1 grams
