DAILY RATES

Bodyweight	Bodyweight	Feed Rate
(lbs)	(kg)	(kg)
600	272	0.5
800	363	0.7
1000	454	0.9
1100	500	1.0
1200	544	1.1
1500	681	1.4

Adequate forage supply provides the base of a healthy diet. If free choice hay is unavailable, ensure a minimum of 1.5% of the horse's bodyweight as hay or equivalent pasture is provided daily.
